BigQuery & Analytics

CERTIFICATIONS

HubSpot Inbound Certification
HubSpot Academy

Google Generative AI
Google Cloud Skills

AI Implementation & Knowledge Operations Specialist with 6+ years in support operations and 2+ years mastering multi-AI orchestration . At Thumbtack, led AI support-bot evaluation (Decagon, Maven, Yellow, Gemini) while creating AI-powered systems for Refunds, Trust & Safety, and frontline teams . Creator of "AI symphony" methodology delivering complete solutions from knowledge platforms to applications.

AI PROJECT MANAGEMENT — "SYMPHONY" METHODOLOGY

Developed systematic methodology for coordinating multiple AI platforms as unified project teams with distinct specialized roles (architecture, development, QA, content, design). Successfully orchestrated delivery of complete websites, automation systems, and applications through structured project management principles.

Professional Experience

THUMBSTACK SPROUT SUCCESS 2022 - 2025
Operations Consultant | AI Implementation & Knowledge Systems

ENTERPRISE AI SUPPORT-BOT EVALUATION

Led comprehensive piloting and evaluation of enterprise support-bot platforms (Gemini, Decagon, Maven, Yellow), testing functionality, documenting limitations, and delivering strategic adoption recommendations to executive leadership for customer-facing AI integration decisions.

- Architected comprehensive **Sprout Social enterprise implementation** - tagging system, sentiment tracking, review response workflow preventing App Store delisting and preserving **millions in potential revenue**

ServiceHub Software

HubSpot Academy

Sprout Social Platform Mastery

Enterprise Implementation

TECHNICAL STACK

AI & Automation: ChatGPT, Claude, Gemini, Zapier, Make.com

Analytics: BigQuery, Tableau, Google Analytics, Observe.AI

CRM/Support: Salesforce, Zendesk, HubSpot, Jira, Linear

Knowledge Mgmt: Confluence, Notion, Coda, Help Centers

Development: HTML, CSS, JavaScript, Python, VS Code

CORE COMPETENCIES

AI Implementation

Support-Bot Platform Evaluation & Enterprise Adoption

Multi-AI Orchestration

Coordinating AI Teams Like Human Project Management

Knowledge Architecture

Self-Service Systems & Documentation Strategy

Process Automation

Workflow Optimization & Policy Compliance

- ▶ Built independent AI-driven systems: Refunds Team (accelerated processing), Trust & Safety (case triage), Support Teams (knowledge base automation, policy updates, training materials)
- ▶ Reduced escalation resolution time from **2-3 business days to <1 hour** through systematic SOP redesign and AI-enhanced workflow automation
- ▶ Developed AI-powered content libraries adopted by **5+ support teams** - canned responses, Help Center articles, compliance documentation improving accuracy and customer experience
- ▶ Built comprehensive documentation framework training AI copilots deployed to **100+ support advocates**, providing real-time answers from structured knowledge systems
- ▶ Created instant review calculator and BigQuery automation tools, streamlining agent research workflows from **20 minutes to 20 seconds**
- ▶ Provided cross-functional AI coordination across Product, Legal, Trust & Safety teams, enabling scalable operations and systematic process improvements

FREELANCE CONSULTANT

2025 - Present

AI Coordination & Knowledge Systems Specialist

- ▶ Provide comprehensive pre-launch backend support for startup client including technical infrastructure and operational systems setup
- ▶ Created comprehensive knowledge base with **40+ articles and guides** covering operational procedures, policy documentation, and user guidance systems
- ▶ Delivered full-scale branding and design consultation including visual identity development and brand positioning strategy
- ▶ Lead website design and development initiatives coordinating technical implementation with business requirements
- ▶ Architect policy documentation framework and compliance systems ensuring regulatory alignment and operational clarity
