 - Automation & Analytics: AI Prompt Engineering, Workflow Automation, Google BigQuery Analytics, Content Quality Assurance
 - Collaboration & Leadership: Cross-Functional Documentation, Process Optimization, Stakeholder Engagement, Escalation Coaching
 - Analytics & Optimization: Knowledge Base Monitoring, Content Gap Analysis, Continuous Improvement
-

Professional Experience

Thumbtack – Remote

Operations Consultant / Escalations Lead

2022 – Present

- Authored and maintained Escalation SOPs, reducing resolution time from 2–3 days to 1–2 hours and improving support accuracy.
- Managed and optimized Help Center articles and internal knowledge base content to reduce customer effort and error rates.
- Designed a centralized Supervisor Workspace for 15+ team leads, enhancing knowledge accessibility and team collaboration.
- Developed an AI-optimized library of canned responses for escalation scenarios and frontline inquiries, adopted by 5–6 support teams (~10 agents each).
- Collaborated on 40+ cross-functional documentation projects with Support, Legal, and Trust & Safety teams, ensuring alignment and compliance.
- Revised customer messaging templates, refund policies, and automated email copy to improve clarity and customer experience.
- Recorded and managed IVR voice systems, enhancing caller experience while reducing vendor costs.

- Developed ROI calculators, review trackers, and BigQuery dashboards to provide actionable insights for team performance.
- Trained peers and support teams on AI tools, prompt engineering, and knowledge optimization best practices.

HomeAdvisor / ANGI – Golden, CO / Remote

Tier 4 Supervisor, Business Engagement & Retention

2018 – 2021

- Developed national onboarding scripts and support documentation to streamline agent training and knowledge retention.
- Created retention-focused knowledge content to support issue resolution and reduce customer churn.
- Provided data-driven insights to cross-functional teams to optimize messaging and customer engagement.
- Promoted three times in one year; led training and knowledge-sharing during company-wide remote work transition.

Select Achievements

- Authored escalation SOPs to accelerate issue resolution and improve operational accuracy.
- Designed AI-optimized canned response libraries to enhance frontline support efficiency and consistency.
- Led IVR voice prompt recording and editing to improve customer interactions and reduce costs.
- Contributed to Help Center content, including CCPA, refund, and data privacy policies.
- Built Supervisor Workspace for 15+ leaders, supporting 40+ cross-departmental documentation initiatives.

Technical Skills

- Knowledge Management & Collaboration: Confluence, Coda, Google Workspace, Slack, Zoom, Asana, Workday
- CRM & Ticketing Systems: Salesforce, Zendesk, Jira, Genesys Cloud, Avaya
