PROFESSIONAL SUMMARY

Customer Success and Operations Consultant with 6+ years translating technical solutions into business impact for enterprise clients. Expert in customer onboarding, strategic coaching, and cross-functional collaboration. Proven track record supporting AI-powered platforms, market research initiatives, and go-to-market strategies. Skilled in data analysis, experimentation guidance, and remote client management across time zones.

CORE COMPETENCIES

Customer Success & Onboarding: Enterprise Client Management, User Onboarding, Strategic Coaching, Customer Lifecycle Management, Retention Strategies

Growth Marketing & Strategy: Market Research, Go-to-Market Strategy, Data-Driven Decision Making, Business Impact Analysis, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Thumbtack — Remote

January 2022 – December 2024

Operations Consultant | Escalations Lead

- Consulted with enterprise customers on complex technical implementations, reducing escalation response times by 95% through strategic coordination
- Coached cross-functional teams on strategic initiatives involving Trust & Safety, Legal, and Operations, preventing \$10K-\$30K+ business losses per case
- Translated technical solutions into executive-level business recommendations, improving decision-making processes for go-to-market strategies
- Managed remote customer relationships across multiple time zones, providing regular status updates and maintaining transparency throughout project lifecycles
- Collaborated with Product, Sales, and Operations teams to acquire technical status, coordinate next steps, and contribute to overall growth strategy
- Delivered data-driven executive summaries on customer outcomes, business impact, and strategic recommendations for leadership visibility

HomeAdvisor / ANGI — Golden, CO / Remote

March 2018 – September 2021

Tier 4 Supervisor, Business Engagement & Retention

- Promoted from frontline to enterprise escalation specialist within 12 months, conducting comprehensive user onboarding for new HomeAdvisor customers
- Led user onboarding programs guiding customers through platform setup, feature adoption, and optimization strategies for five-to-six-figure budget clients
- Designed customer success processes focused on messaging validation and value proposition testing to improve retention rates
- Successfully transitioned customer onboarding processes to remote operations during COVID-19, maintaining customer satisfaction scores through virtual engagement

- Provided strategic guidance to enterprise customers on platform experimentation, growth marketing tactics, and business optimization
- Collaborated with technical teams to translate customer feedback into actionable product improvements and market research insights

KEY ACHIEVEMENTS

- 95% escalation response time reduction through strategic process coordination and cross-functional team management
- Prevented \$10K-\$30K+ customer losses per incident through proactive consultation and technical coordination
- Successfully managed 1,500+ complex customer onboarding and escalation cases requiring cross-departmental collaboration
- Developed customer success frameworks improving team adherence to onboarding protocols and communication standards
- Established remote customer success operations with measurable impact on customer satisfaction and retention metrics
